## LOCAL BREVITIES.

Bad weather interfered with the exhibition at the Kilohana Art League of the water colors of Miss Julie Raymond of Brooklyn last night. The exhibition will continue Monday and Tuesday nights.

Captain Miller, late of the Pacific Oil Transportation Company, is laid up at his home after suffering a heavy fall last Thursday. He was bruised considerably around the head and body and has been unconscious part of the time.

John Kapile, a native, yesterday joined the train of Bacchus, contrary to the laws of the City and County of Honolulu, Territory of Hawaii, which do not recognize Bacchus on the "protected list," and John was annexed by the police.

A. Collins, alias Galas, yesterday pyrotechnized opposite the Central Police Station and the air became so thick with abusive language that he had to be removed. He was booked for investigation at the police station, and later booked as a drunk.

Out of the one hundred and seventy-eight families which arrived last week from the Azores on the steamship Swanley, one hundred and twenty-nine have gone to the plantations. Seventy-seven out of the one hundred and twenty-seven single men have also gone to the plantations.

Doctor Clark, special agent in charge of the census for Hawaii, returned yesterday from the Big Island, where he has been making arrangements for the work. Thirty enumerators, under the directions of two supervisors, will take the census on Hawaii, but no appointments have been made as yet.

Leverett H. Mesiek, with the Hawaiian Gazette Company, has been appointed Hawaiian agent of the well-known Keystone Type Foundry of Philadelphia, New York, Chicago, Detroit, Atlanta and San Francisco, with full authority to make contracts, collections, quotations and accept orders.

Last night was a dull one for the detective force of the local police for it was too damp even for gamblers. However, Chief McDuffie succeeded, with the help of three of his men, in connecting with an interesting trio indulging in uchi-kau in a Kekaunike street tenement house. All are Japanese, Honda, Negato and Kato by name, and the cards and \$2.25 were filed as evidence.

## Army and Navy News

Want Vice-Admiral.

WASHINGTON, December 7.—Tired of having American naval officers take a back seat at foreign funerals, weddings and other gatherings with an international tinge to them, Rear-Admiral Potter, aid of personnel to the Secretary of the Navy, wants congress to revive the ranks of vice-admiral. In his annual report as Chief of the Bureau of Navigation, Admiral Potter said that, with increased responsibilities due to the enlarged fleet, appropriate rank should be conferred upon the commanding officer.

New Idea in Submarines.

WASHINGTON, December 3.—There is much interest in the announcement that Russia is planning two submarines which will be of a speed to enable them to cruise and maneuver in company with a battleship fleet. If the two vessels come up to expectations certain naval experts who hold that submarines can be used only for harbor defense will be compelled to revise their opinions of the value of the underwater ships. The Russian builders' specifications call for boats of 613 tons, an over-all length of 166 feet 9 inches and guaranteed speeds of 17 1-2 knots on the surface and 11 1-2 knots completely submerged. This speed would enable them to keep company with battleships of the older types at all speeds, and with those of the "Dreadnought" class, except when the latter are steaming under forced draught usual only when actually engaged.

Hitherto naval experts have believed fifteen knots the maximum speed which could be developed in submarines, owing to the absence of a satisfactory type of engine for both surface and submerged propulsion, and the results of the trials will be awaited with interest.

In this connection it may be well to remember that the American submarine, as embodied in the Octopus, is of 200 tons displacement and about 100 feet long.

The Tena Is Sunk.

The French battleship Tena, which has been used recently as a target for gunnery practice by vessels of the fleet, was so severely damaged that she exploded and sunk yesterday while being towed into port. In 1907 an explosion occurred in the magazine of the Tena. Eighty of her crew were killed and hundreds of others were injured.

## HAWAIIAN WOMAN IS WASHED TO HER DEATH

A report from Waimanalo, on the other side of Barber's Point states that Naiole, a native woman, was washed off the rocks while hunting limu and drowned in the sight of her companions. The back wash of a wave threw her from her footing and into a deep hole. Naiole was about fifty-four years of age and her husband and several children survive her.

## APPEALS WILL GO AMONG DEAD LETTERS

Santa Claus has been refused official recognition by the federal government. Scores of children who have written letters to "Santy" in the past and had them turned over to the postmaster and in turn to the charitable organizations and philanthropists, will no longer benefit by such postoffice routine.

Instead of going into the hands of the postmaster, the mute appeals of the unfortunates will be sent on to Washington, stacked in heaps in the dead letter office and, if the little writers can be found, the appeals will be returned to them.

Kaikaia, a native woman, yesterday indulged in some acrobatics at the corner of Fort and King streets, the same being caused by an overindulgence in alcoholic liquors, and was the center of attraction for a few minutes before the police took her in tow.
